

Introduction to Website Management

Have you always wanted a website but didn't know where to begin or put off by the cost of a website developer? This course will introduce you to the basics of website creation and management. We will show you how easy it is to get started and customise the site to your needs.

You will be shown how to:

- Register a domain name
- Choose and sign up with a website hosting provider
- Determine the type of website to create
- Create your first website with WordPress

WordPress allows you to create a highly customised website through the use of themes, plugins and widgets and its online content management means that no special software is required. If you know how to type and use the internet, you can create a site with WordPress!

Course Times: By Arrangement—Maximum 6 participants

Duration: 3 hours approx.

Bookings are essential. Call or visit our office for further details.

Investment: \$150 per person

Phone: 08 8723 6337
